

# My Nature & Wildlife Journal

Name: \_\_\_\_\_ Date: \_\_\_\_\_

Location: \_\_\_\_\_ Weather: \_\_\_\_\_

## Animal Sightings

Animal	Time	Location	Behavior	Notes

Sketch of Most Interesting Animal Observed:

[Space for drawing]

## Plant Observations

Plants I Identified Today:

1.

2.

3.

Plant Growth Tracking:

Plant name: \_\_\_\_\_ Height/Size: \_\_\_\_\_ Changes since last observation: \_\_\_\_\_

## Habitat Mapping

Sketch the habitat you observed today: [Space for drawing]

Label these elements in your habitat sketch:

- Water sources
- Food sources
- Shelter areas
- Signs of animal activity
- Plant communities

## Species Identification Practice

New species I'm learning to identify:

How to identify it (key features):

## Seasonal Changes

Signs of the season I observed:

---

---

How this area might look in a different season:

---

## Nature Questions

Questions that arose during today's observations:

---

## Collection (optional)

*Remember to only collect items that are permitted and abundant (like fallen leaves, acorns, etc.)*

Item collected: \_\_\_\_\_ Where found: \_\_\_\_\_ Purpose: \_\_\_\_\_

Sketch or attach item here: [Space for specimen]

---

*Remember: Good naturalists observe without disturbing wildlife or damaging habitats!*
